Active Learners

An Independent Public School

# Five reasons why

... to enrol in the Prep class of 2025 at Currimundi State School

## Two:

We believe that “young people have fires within waiting to be lit” and our teachers know how to ignite that “Spark” or passion that drives a child’s motivation, optimism and self-belief.

## Four:

By building social-emotional skills and resilience in your child we are building the foundations for success in school, the work force and for life in the 21st Century (oh, and we are also very good with digital technology and science and mathematics).

## Three:

Your child is surrounded by caring staff who see young people by their strengths and not by their deficits. Our learning environment is characterised by genuine care for each child.

## Five:

We provide a classroom environment that engenders a love of learning, experiencing new things and accepting mistakes as an important part of the learning process.

## One:

We teach young children how to focus on, appreciate and enjoy the present, to resist distractions and to be mindful of the world around them and of others. This leads to increased capacity for learning for all.

Teachers use simple daily practices leading to calmer classrooms that are highly conducive to learning.

Teachers gently but expertly support students to be able to focus and sustain their attention and what they are currently doing.

## Be part of our small, friendly school by the beach ...

*where children thrive!*

## And there is a sixth reason:

We acknowledge the capacity to read effectively enables success in all other areas of schooling and our evidence-based approach promotes your children to become the best readers they can be.

## We are taking enrolments for 2025 now!

We welcome you to be part of our great school and set your child up for a wonderful school experience at Currimundi State School by enrolling in Prep for 2025.

## Come and See ...

If you wish to meet with me and see for yourself, please call the school on **5436 6888** and make an appointment.

Our transition program including online booking links can be found on our school website.
